THE SIMPLY ENDODONTICS SERVICE

We are delighted to offer you and your patients a private referral clinic for endodontic treatments in East Kent, based in Birchington-on Sea.

At SIMPLY ENDODONTICS, we are able to offer your patients endodontic treatment carried out in a relaxed environment using contemporaneous techniques and equipment. Your patient will be fully informed of the procedure during their consultation and will receive a written treatment plan outlining costs and the number of proposed appointments, thereby providing gaining their informed consent.

On completion of the endodontic treatment, your patient will be returned to you for a definitive restoration and on-going general dental care. Patients and referring dentists will be able to contact us should any queries arise before, during or after endodontic case is undertaken. Your patient will only be offered treatment for which they have been specifically referred.

ALL TREATMENTS ARE CARRIED OUT USING THE GLOBAL OPERATING MICROSCOPE, RUBBER DAM AND A WIDE RANGE OF UP-TO-DATE ENDODONTIC TECHNIQUES AND EQUIPMENT

The specialised equipment used for the provision of endodontic techniques means we can offer a wide range of services to you and your patients including:

- 'de novo' endodontic treatments
- re-treatment cases
- more complex cases and those with 'bizarre' anatomy
- sclerosed canals/ blocked canals and the removal of pulp stones
- searching for extra canals
- removal of posts, silver points, fractured instruments
- repair of perforations
- treatment/ advice on resorption cases
- treatment and advice relating to cases involving dental trauma
- 'HOT pulps'
- acute dental trauma cases

continued ...

The Service we are offering to referring dentists and patients:

- Patients will have a full consultation including clinical and radiographic examination based on the nature of the referral.
- Patients will be fully consented for any treatment proposed and subsequently undertaken.
- Patients will receive a written treatment plan outlining costs and the number of proposed appointments.
- Patients will receive a high standard of endodontic treatment using modern equipment and materials, and in accordance with the European Society of Endodontology Guidelines (<http://www.britishendodonticsociety.org.uk/profession/quality-guidelines.pdf>). This includes the use of rubber dam, operating dental microscope etc.
- Patients can contact us before, during or after endodontic treatment, should any queries arise. Likewise referring dentists can contact us regarding their patients' progress.
- Referring dentists will be kept informed of their patients' progress.
- A discharge letter and a copy of the final radiograph will be sent to the referring dentist upon completion of each of their patient's endodontic treatment. The patient will also receive a copy of this.
- No other treatment other than that for which the patient has been referred will be undertaken.

Referrals may be made using the referral form included in this pack or by downloading a 'referral form' from my website at: simplyendodontics.co.uk
